Had fun for 7 hours... for 4 Euro... you make your choice! I give it a thumbs up!. Was cool for 5 minutes. Got old fast.. Great game, no bugs yet and very addictive.. positive review support. I love turning that awful mix match of colors into a nice dull Grey

I definitely recommend it! A very atmospheric game with an interesting plot. What is worth noting is that this isn't mentioned anywhere in the game, but here are 3 campaigns (Imperial, Pagan, Renaissance), so You can have more of a game than You probably could thought after purchase. As for the game itself, mechanics and balance of the game are very well done.. good game value.i like the bowling best, all the games are simple to start and play.there is something for everyone,. A very atmospheric and quite scary indie horror game that in a way works perfectly as an unofficial spin-off of Five Nights at Freddy's. I like the FNAF franchise and this game kind of complements it. It is worth its money. One important thing to say is some graphic options, especially v-sync extend loading times for some reason, but those can be disabled. Not really a huge problem. The game is still really enjoyable.. This game is... okay at best.

This game has some minor flaws in it that make me not like the game as much as I want to.  
(e.g. You cannot replay previous weeks [levels] in the game)

Also I do not like how the game does not tell you how to play.

It took me about 2 mins to realize that I had to use arrow keys, 5 mins to figure out what keys do what, and about 10 mins to figure out what I was supposed to be doing.

I stopped at the third week because I just got really bored playing the game. That's not something that should happen when you play a game!

In conclusion, I would not recommend paying money for this. (Unless you are like me and got a steam coupon for the game and used it for the trading cards.). The controls are a little hard to get used to but its a fun little game. I think there should be a currency in the game there almost is in the game... It says an item will cost 50 currency then gives it to you for free. Aslo if it could have multiplayer and even more races that would make it so much better. I finished the race and got first place in about half an hour. Please make more features!!. Everything I want in a Military strategy game is here. It takes a brain and a good memory to manage this intriguing masterpiece. Yes there are a few glitches but I expect them to be fixed soon. I will enjoy this one as much as I can.. There's something very catchy about this. Bring on Season 2!
